- Custom sizes are available

### Benefits

- Fully washable
- Two year guarantee against manufacturing defects

### Application

- Indoor
- High traffic areas
- Hotels
- Shopping Centres
- Airports
- Commercial buildings

### Cleaning

The Sentinel mat is made from a polypropylene needle-punched wear surface that is vulcanised to a rubber backing. Due to this process, no adhesive is used and therefore the mat may be immersed in water or subjected to light diluted detergents without the bond being affected in any way.

General every day cleaning by means of vacuuming should be practised. Should the mat be stained however, any suitable diluted detergent with a light nylon brush may be used and the mat hosed down with clean water after such cleaning.

The mat may then be hung up and should drip dry.
